DEPARTMENT OF FED

1. Title of the Activity: A Visit to KUMAR PUMPS AND MOTORS
2. Program Type: Industrial visit
3. Dates: 23/4/2022
4. Number of Students Participated: 269
5. Number of Faculty Participated: 3
6. Objective:
   - I. To train the students with good scientific , engineering and manufacturing breadth so as to understand , analyze , design and create new products.
   - II. To know various operations of pumps and motors.
   - III. To provide the students with a strong foundation in physics , science and engineering.
   - IV. To better understand the machinery/technology used in production.
   - V. To know about industry environment.
   - VI. To understand automation concepts in production of pumps and motors.
7. Faculty Coordinator : Dr.G.Srinivasa Rao , T.David Raju, and G.Suresh
8. Student Coordinator if any : No

10.Report: Firstly, they took us to canteen for refreshments, and further they led us to the main production unit, where, first we got to see the manufacturing of pumps and motors, continued by the session of the production of pumps and motors.

They explained how to manufacture a superior quality product at a reasonable cost. They showed us the products performance as per bureau of Indian standards and quality control as per ISO 9001:2015. We had seen how an imported thermal over load protector which shuts off power supply to the motor when winding temperature rises above regular permissible level, eliminating coil burn out problems.

At the last, the students queries had been taken up about the production of pumps and motors. The present visit helped the students to know about modeling, machining ,joining, sharing and forming processing practices. The responses gained were acknowledged by all the students. We thank the college of management studies for providing us this opportunity to learn and interact with the professional.
