A SEMINAR ON TIME MANAGEMENT :

Time management is the act or process of planning and exercising conscious control over the amount of time spent on specific activities, especially to increase effectiveness, efficiency or productivity. Time management may be aided by a range of skills, tools, and techniques used to manage time when accomplishing specific tasks, projects and goals complying with a due date. This set encompasses a wide scope of activities, and these include planning, allocating, setting goals, delegation, analysis of time spent, monitoring, organizing, scheduling, and prioritizing.

Time management is the ability to plan and control how you spend the hours in your day to effectively accomplish your goals. Poor time management can be related to procrastination, as well as problems with self-control.

Time Management in Corporate :

- Time Management helps an individual to prioritize things
- Effective Time Management makes you a favourite amongst your superiors, clients as well as fellow workers
- Managing time well helps an employee to plan his career path effectively
- Time Management makes you an organized individual
- Effective Time Management helps an individual to identify the time wasters at the workplace.
- Time Management makes an individual disciplined and punctual
