Introduction

Research is the systematic and objective process of gathering, recording and analyzing data for taking appropriate and meaningful decisions. To keep pace with the recent advancement in any discipline, one has to be well versed with latest developments in research methodology. The seminar is designed to cater the needs of the physical education teachers, research scholars and postgraduates in the field of Physical Education. One needs to possess a solid conceptual clarity so as to overcome the knowledge gaps or the wrong notions related to research for fruitful research to happen. Keeping in view the importance of research methodology, the seminar and workshop is aimed to explore the basic dimensions of research and create platform for academicians and research scholars for sharing their views.
