Resource Person Profile

Presently Working as Professor of Department of Management Studies Sree Vahini Institute of science & Technology. Having 20 Years of Teaching Experience and Giving Guidance for Students for those projects

A seminar on Growth of Insurance in rural area :

Rural Insurance is a type of insurance that has been specifically designed for the rural public. This plan ensures that families who are living in rural regions have a secure and safe future so that they can live a comfortable and happy life. It helps them to cover risks associated with different aspects of their life.

Rural insurance ensures that families living in rural areas have a safe and secure future so that they can lead a happy life. The insurance helps them to cover risks related to various aspects of their life. Rural Insurance policies come with the affordable premium rates and faster claim process.

Growth of Insurance :

The insurance industry of India has 57 insurance companies - 24 are in the life insurance business, while 34 are non-life insurers. Among the life insurers, Life Insurance Corporation (LIC) is the sole public sector company. There are six public sector insurers in the non-life insurance segment. In addition to these, there is a sole national re-insurer, namely General Insurance Corporation of India (GIC Re). Other stakeholders in the Indian Insurance market include agents (individual and corporate), brokers, surveyors and third-party administrators servicing health insurance claims. Between April 2021-March 2022, gross premiums written off by non-life insurers reached Rs. 220,772.07 crore (US\$ 28.14 billion), an increase of 11.1% over the same period in FY21. In May 2022, the total premium earned by the non-life insurance segment stood at Rs. 36,680.73 crore (US\$ 4.61 billion), a 24.15% increase as compared to the same period in the previous year.
