To,
The principal,
R K College of Engineering.

Through HOD-ME

Sub: Seeking permission to an internship at SRC e Solutions -reg

Sir,

I am writing this letter to request permission to do an internship in SRC e Solutions from 19th march 2020 to 18th April 2020. The objective of this internship is to Develop communication, interpersonal, and other critical skills in the job interview process. I believe this will be very informative and useful to the students.

So please consider the request to do an internship in SRC e Solutions.

Yours Sincerely,

Mr. Ch prem Kumar.

Assistant professor.

Vijayawada.

Subject: Request for internship

Sir/ Madam,

I am writing this letter on behalf of R K College of Engineering in order to inform you that the following students are looking forward to joining the internship program from 19th march 2020 to 18th April 2020 in your esteemed company. The following students need to join a 30-day long internship and attain a certificate after satisfactory training.

It will be a golden opportunity for the students as they will get to learn a lot of new things. It is to request you to kindly allow the following students to join the training program from your reputed company.

Thanking you

HOD

CIRCULAR

All the staff member iii B Tech and iv B Tech students are hereby informed that the “internship on ANSYS” is going to be organized by the department of mechanical engineering from 19th march 2020 to 18th April 2020 in association with SRC e Solutions. Hence all the students may register for this program

Sub: To organize an internship on Computer Integrated Manufacturing Systems-Regarding

Sir,

I am pleased to inform you that to organize an internship program on **Computational fluid dynamics** for Mechanical Engineering students dated from 19th march 2020 to 18th April 2020.

We appreciate your interest in Micro Link Information Technologies.

Yours sincerely,

CO-ORDINATOR

Report on Computational fluid dynamics

CFD is the analysis of systems involving fluid flow, heat transfer and associated phenomena such as chemical reactions by means of computer-based simulation. The technique is very powerful and spans a wide range of industrial and non-industrial application areas.

The ultimate aim of developments in the CFD field is to provide a capability comparable with other CAE (computer-aided engineering) tools such as stress analysis codes. The main reason why CFD has lagged behind is the tremendous complexity of the underlying behaviour, which precludes a description of fluid flows that is at the same time economical and sufficiently complete. The availability of affordable high-performance computing hardware and the introduction of user-friendly interfaces have led to a recent upsurge of interest, and CFD has entered into the wider industrial community since the 1990s.

The ultimate aim of developments in the CFD field is to provide a capability comparable with other CAE (computer-aided engineering) tools such as stress analysis codes. The main reason why CFD has lagged behind is the tremendous complexity of the underlying behaviour, which precludes a description of fluid flows that is at the same time economical and sufficiently complete.
