Date: 19th April 2021

To
The Principal,
R K College of Engineering.

Dr. K. GOPINADH
Freshmen Engineering Department,
R K College of Engineering.

Through: The HOD, FED,

Respected Sir,

Sub: Request permission to conduct a Seminar on "CONSERVATION OF BIODIVERSITY"
-Regarding.

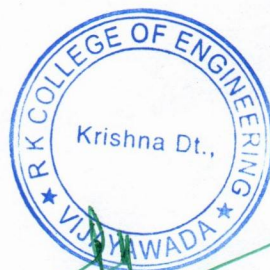

I request you to please grant permission for conducting a Seminar on "CONSERVATION OF BIODIVERSITY" in the Seminar Hall From 28th APRIL 2021 to 29th APRIL 2021. This Seminar will focus on to conserve flora and fauna. I believe that this will be a very informative seminar and that many students will be much benefited.

Our students are the future of tomorrow, and they really need to understand about different kinds of flora and fauna through the world. They should know the importance of all the resources in environment. By getting awareness on this topic every student should take a motivational step to educate everyone not to kill or export flora and fauna for once pleasure.

Thanking you sir,

[Handwritten signature of HOD FED]

Respected MAM,

Subject: Request invitation for delivering expert lecture one day seminar on
"CONSERVATION OF BIODIVERSITY" – Regarding.

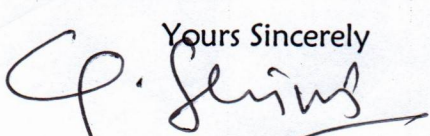

The Freshman Engineering Department, RKCE, Kethanakonda (V), Ibrahimpatnam (M), Amaravati, Andhra Pradesh is organizing a two day Seminar From 28th APRIL 2021 to 29th APRIL 2021 on "CONSERVATION OF BIODIVERSITY" for I-B.Tech. Students. On behalf of our college Management and Principal, I am very happy to invite you as a resource person.

I request you to accept the invitation and arrange to send the relevant study material for inclusion in the course book.

Please inform us of your acceptance which will be much appreciated.

Thanking You Sir,

A TWO DAY SEMINAR ON "CONSERVATION OF BIODIVERSITY"
ORGANIZED BY THE DEPARTMENT OF F.E.D., RK COLLEGE OF ENGINEERING

PROGRAMME FLOW

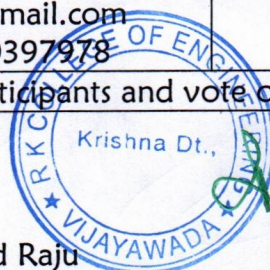

DAY-1 (28th APRIL 2021)

Time	Speaker	Topic to be delivered
10.00 AM to 10.15 AM	T.DAVID RAJU	Welcome speech
10.15 AM to 10.30 AM	Dr. K. GOPINADH	Introduction about the program
10.30 AM to 11.30 AM	MS.G.SRILAKSHMI Email: orugantisrilakshmi6@gmail.com Phone No: 9550397978	"CONSERVATION OF BIODIVERSITY" - Introduction
11.30 AM to 11.45	TEA BREAK	
11.45 AM to 01.00 PM	MS.G.SRILAKSHMI Email: orugantisrilakshmi6@gmail.com Phone No: 9550397978	Pattern of Biodiversity
01.00 PM to 02.00 PM	LUNCH BREAK	
02.00 PM to 04.00 PM	MS.G.SRILAKSHMI Email: orugantisrilakshmi6@gmail.com Phone No: 9550397978	Loss of Biodiversity

DAY-2 (29th APRIL 2021)

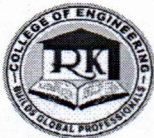

Time	Speaker	Topic to be delivered
10.30 AM to 11.30 AM	MS.G.SRILAKSHMI Email: orugantisrilakshmi6@gmail.com Phone No: 9550397978	Causes of Biodiversity losses
11.30 AM to 11.45	TEA BREAK	
11.45 AM to 01.00 PM	MS.G.SRILAKSHMI Email: orugantisrilakshmi6@gmail.com Phone No: 9550397978	Conservation of Biodiversity
01.00 PM to 02.00 PM	LUNCH BREAK	
02.00 PM to 03.30 PM	MS.G.SRILAKSHMI Email: orugantisrilakshmi6@gmail.com Phone No: 9550397978	Our role on conserving biodiversity
03.30 PM to 04.00 PM	Feedback from the participants and vote of thanks by Mr. T. David Raju	

Coordinators: Dr. K. Gopinadh and T. David Raju

REPORT ON A TWO-DAY SEMINAR

Title: "CONSERVATION OF BIODIVERSITY"

Expert: MS.G.SRILAKSHMI

Email: orugantisrilakshmi6@gmail.com

Phone No: 9550397978

Date: From 28th APRIL 2021 to 29th APRIL 2021

Venue: Seminar Hall, Department of FED, RKCE.

Coordinators: Dr. K. Gopinadh

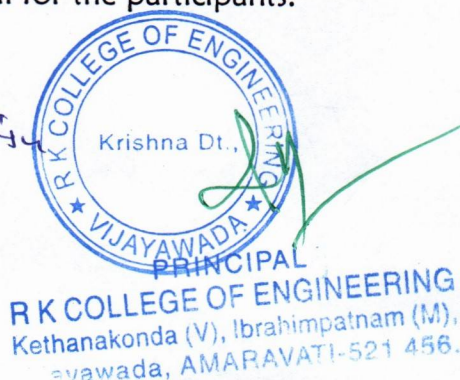

T. David Raju

Organized by: Freshmen Engineering Department, RKCE

Details of Participants: CE, EEE, ME & ECE.

Students of CE, EEE, ME & ECE are attended the seminar about "CONSERVATION OF BIODIVERSITY" with full attention throughout a day. Mrs. G. Sri Lakshmi, Resource Person, had elaborately explained about the importance of flora and fauna in environment. She told about endangered and endemic species in detailed. For our comfort we are affecting these species i.e, for food, pleasure money, shelter, medicine etc. By knowing this topic some of us may stop hunting, poaching, killing, cutting plants etc. The detailed topic is showed in program flow. The seminar was very useful as well as effectively helpful for the participants.

Two days Seminar on “CONSERVATION OF BIODIVERSITY”

ORGANIZED BY THE DEPARTMENT OF F.E.D., RK COLLEGE OF ENGINEERING
ABOUT THE RESOURCE PERSON

Presently Working in M.V.R COLLEGE OF ENGINEERING as Assistant Professor in S&H Department. She is dedicated woman with 10+ years of teaching experience in various institutions.

About CONSERVATION OF BIODIVERSITY:

In our biosphere immense diversity (or heterogeneity) exists not only at the species level but at all levels of biological organization ranging from macromolecules within cells to biomes. Biodiversity is the term popularized by the socio biologist Edward Wilson describes combined diversity at all the levels of biological organization. The most important of them are

Genetic diversity: A single species might show high diversity at the genetic level over its distributional range. The genetic variation shown by the medicinal plant Rauwolfia vomitoria growing in different Himalayan ranges might be in terms of the potency and concentration of the active chemical (reserpine) that the plant produces. India has more than 50,000 genetically different strains of rice, and 1,000 varieties of mango.

Species diversity: The diversity at the species level, for example, the Western Ghats have a greater amphibian species diversity than the Eastern Ghats.

Ecological diversity: At the ecosystem level, India, for instance, with its deserts, rain forests, mangroves, coral reefs, wetlands, estuaries, and alpine meadows has a greater

ecosystem diversity than a Scandinavian country like Norway. It has taken millions of years of evolution, to accumulate this rich diversity in nature, but we could lose all that wealth in less than two centuries if the present rates of species losses continue.

Biodiversity and its conservation are now vital environmental issues of international concern as more and more people around the world begin to realise the critical importance of biodiversity for our survival and well-being on this planet. 15.1.1 How Many Species are there on Earth and How Many in India? Since there are published records of all the species discovered and named, we know how many species in all have been recorded so far, but it is not easy to answer the question of how many species there are on earth. According to the International Union for Conservation of Nature and Natural Resources (IUCN) (2004), the total number of plant and animal species described so far is slightly more than 1.5 million, but we have no clear idea of how many species are yet to be discovered and described.

Estimates vary widely and many of them are only educated guesses. For many taxonomic groups, species inventories are more complete in temperate than in tropical countries. Considering that an overwhelmingly large proportion of the species waiting to be discovered are in the tropics, biologists make a statistical comparison of the temperate-tropical species richness of an exhaustively studied group of insects and extrapolate this ratio to other groups of animals and plants to come up with a gross estimate of the total number of species on earth. Some extreme estimates range from 20 to 50 million, but a more conservative and scientifically sound estimate made by Robert May places the global species diversity at about 7 million. 2022-23 260 BIOLOGY Let us look at some interesting aspects about earth's biodiversity based on the currently available species inventories. More than 70 per cent of all the species recorded are animals, while plants (including algae, fungi, bryophytes, gymnosperms and angiosperms) comprise no more than 22 per cent of the total. Among animals, insects are the most species-rich taxonomic group, making up more than 70 per cent of the total. That means, out of every 10 animals on this planet, 7 are insects.
