SUB: Seeking Permission To Conduct Three Day Workshop On “Fundamentals Of IOT”-Reg

Respected sir,

I Am Writing This Letter to request permission to conduct seminar on Fundamentals of IOT -on 05-03-2020 to 07-03-2020 @ 10 A.M . I wish to organize this seminar to get knowledge about different fundamentals for students . I believe this will be very useful to many of the students .This seminar is really need to under stand the different IOT of a computer. I believe small steps must be taken to educate everyone on the seriousness of the matter and this is one of them.

Yours sincerely

P.V.SIVA RAMA KRISHNA

Subject: Request Invitation For Delivering Expert Lecture On Three Day Workshop On
“ Fundamentals Of IOT”-” From 05-03-2020 To 07-03-2020

RESPECTED SIR,

The Department Of Computer Science is feeling happy to invite you for
giving your valuable seminar on “ fundamentals of IOT”-from 05-03-2020 to 07-03-2020
as a resource person

I request to accept the request and arrange to send the relavant study material to add in the
course book aline of reply will be much appreciated

Thanking you sir

Report on THREE DAY WORKSHOP on "FUNDAMENTALS OF IOT"

TITLE: "FUNDAMENTALS OF IOT"

Expert: T.BHANU CHANDRA REDDY

Email: BHANUAPPSC@gmail.com

Phone No: 9885156239

Dates: From 05th MARCH 2020 to 7th MARCH 2020

Venue: Room no F-3, Department of CSE, RKCE.

Coordinator : P.V.SIVA RAMA KRISHNA

Organized by: Computer Science Engineering, RKCE

Details of participants: students of 2-1,3-1,4-1 semester.

Students of 2-1,3-1,4-1 semester are attended the three days workshop on "Fundamentals Of Iot" with full enthusiastically throughout a day. Bhanu chandar reddy has elaborately explained about the process and advantages of fundamentals of IOT. Moreover he has explained about the various types and applications of IOT. The detailed topics are showed in program flow. The seminar was very useful as well as effective for the participants.

A Three-Day Workshop on “Fundamentals of IOT”

Dates: 05-03-2020 to 07-03-2020

Faculty Co-Ordinator: P. V. Siva Rama Krishna

Our Department of Computer Science and Engineering has organized Three days workshop on “Fundamentals of IOT” from 05-03-2020 to 07-03-2020 and the resource person Bhanu Chandar Reddy. T and P. Sandeep Kumar, APSSDC.

Mr. K. Koteswara Rao, Head, Dept. of CSE welcomed the Resource Persons from APSSDC Team Members and stated the importance of Internet of Things; Impact of

The Chief Guest, Dr. K. Rama Krishnaiah garu, Principal, RKCE addressed the students about significant challenges of IoT and the future of connected world.

PRINCIPAL

Vijayawada, AMARAVATI-521 456.

This program provided an opportunity for participants to enrich their knowledge and skill in developing interfaces of switches with Arduino & LCD based projects; seven segment display with Arduino and sensors with Arduino-LDR; Humidity sensor; and Temperature sensor to create successful applications on IoT environment. During the three Day workshop, APSSDC resource persons shared valuable insights on real life scenarios and solutions on The Internet of Things and Hands on expertise on Arduino tool kit.

Mr. Bhanu Chandar Reddy T, Trainer cum Developer, APSSDC demonstrated the functionality of Proteus software used primarily for electronic design automation and its installation procedure which is used prominently in the applications of IoT.

Mr. T. Anil Kumar, Trainer cum developer, APSSDC demonstrated different applications of IoT and its practical implementations with tool kits. Further, he demonstrated the Keil-IDE and showed how it generated the results of CSE participated in this 3 day

A thing in the internet of things can be a person with a heart monitor implant, a farm animal with a biochip transponder, an automobile that has built-in sensors to alert the driver when tire pressure is low or any other natural or man-made object that can be assigned an Internet Protocol (IP) address and is able to transfer data over a network.

Increasingly, organizations in a variety of industries are using IoT to operate more efficiently, better understand customers to deliver enhanced customer service, improve decision-making and increase the value of the business.

Kethanakonda (V), Ibrahimpatnam (M), Vijayawada, AMARAVATI - AP - 521456

An IoT ecosystem consists of web-enabled smart devices that use embedded systems, such as processors, sensors and communication hardware, to collect, send and act on data they acquire from their environments. IoT devices share the sensor data they collect by connecting to an IoT gateway or other edge device where data is either sent to the cloud to be analyzed or analyzed locally. Sometimes, these devices communicate with other related devices and act on the information they get from one another.

The devices do most of the work without human intervention, although people can interact with the devices -- for instance, to set them up, give them instructions or access the data.
